

MEMORANDUM ORDER

No. <u>40</u> Series of 2021

SUBJECT:

LIFTING THE TEMPORARY BAN ON THE IMPORTATION OF DOMESTIC AND WILD BIRDS AND THEIR PRODUCTS INCLUDING POULTRY MEAT, DAY OLD CHICKS, EGGS AND SEMEN ORIGINATING FROM *Lethebridge*, *Victoria*, *Australia*

WHEREAS, based on the final report submitted by the veterinary authorities of Australia to the World Organisation for Animal Health,the Highly Pathogenic Avian Influenza (HPAI) events in Lethebridge, Victoria, Australia (*with previous temporary suspension order: DA MO No. 59 series of 2020*) are now closed and resolved;

WHEREAS, in accordance to the provisions of Chapter 10.4, article 10.4.3 of the OIE Terrestrial Animal Health Code 2019, Lethebridge, Victoria, Australia is now free from HPAI;

WHEREAS, based on the evaluation of the Department of Agriculture, the risk of contamination from importing poultry meat, day old chicks, eggs and semen is negligible;

NOW, THEREFORE, I, WILLIAM D. DAR, Secretary of the Department of Agriculture, by the powers vested in me by law, do hereby lift the temporary ban on the importation of domestic and wild birds and their products originating from Lethebridge, Victoria, Australia;

All import transaction of the above bird species shall be in accordance with existing rules and regulations of the Department of Agriculture and the Bureau of Animal Industry.

All orders, rules and regulations or parts thereof which are inconsistent with the provisions of this order, are hereby repealed or amended accordingly.

This **ORDER** shall take effect immediately.

Done this 2nd day of July 2021

MEMORANDUM ORDER

No. ______ Series of 2020

SUBJECT:

AMENDMENT TO DA MEMORANDUM ORDER NO. 40 SERIES OF 2020 ON THE IMPORTATION OF DOMESTIC AND WILD BIRDS AND THEIR PRODUCTS INCLUDING POULTRY MEAT, DAY OLD CHICKS, EGGS AND SEMEN ORIGINATING FROM AUSTRALIA

WHEREAS, as reflected in the official reports of Dr Mark Schipp, Chief Veterinary Officer, Department of Agriculture, Water and the Environment, Australian Government, Canberra, Australia in the World Organisation for Animal Health, the H7N7 Highly Pathogenic Avian Influenza has been limited to Lethebridge, Victoria, Australia since its first report on 31 July 2020;

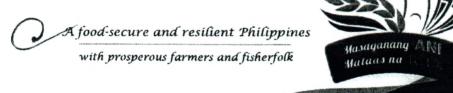

WHEREAS, based on the documents submitted by the Department of Agriculture, Water and Environment of Australia, immediate disease control measures were carried out by their veterinary services to contain the HPAI;

WHEREAS, after careful evaluation of the Bureau of Animal Industry (BAI) on the documentary evidences of the veterinary services of Australia, the risk of contamination from importing domestic and wild birds and their products including poultry meat, day old chicks, eggs and semen outside Lethebridge, Victoria, Australia is negligible;

NOW, THEREFORE, I, WILLIAM D. DAR, Secretary of the Department of Agriculture, by the powers vested in me by law, do hereby amend DA Memorandum Order No. 40 series of 2020 with the following measures:

- The importation of the abovementioned commodities will be allowed provided it will be sourced from areas outside Lethebridge, Victoria, Australia
- Additional attestations on the veterinary health certificate on all exports of poultry meat from Australia in accordance to Article 10.4.19. of the OIE Terrestrial Animal Health Code (2019):
 - a. The birds were kept in a country, zone or compartment free from infection with high pathogenicity avian influenza viruses in poultry since they were hatched or for at least the past 21 days;
 - b. The birds were slaughtered in an approved abattoir in a country, zone or compartment free from infection with high pathogenicity avian influenza viruses in poultry and have been subjected to ante- and post-mortem inspections in accordance with Chapter 6.3 and have been found free of any signs suggestive of avian influenza.

All import transaction of the above commodities shall be in accordance with existing rules and regulations of the Department of Agriculture, Bureau of Animal Industry and National Meat Inspection Service.

All orders, rules and regulations or parts thereof which are inconsistent with the provisions of this order, are hereby repealed or amended accordingly.

This **ORDER** shall take effect immediately.

Done this 6th day of November 2020.

WILLIAM D. DAR, Ph.D.

General information

Country or zone - Zone

Disease - Highly pathogenic avian

Started on - 24/07/2020

influenza (poultry)

Animal type - Terrestrial

Genotype/serotype/subtype - H7N7

Confirmed on - 31/07/2020

Causal agent - Highly pathogenic avian

Ended on - 30/11/2020

Disease category - OIE-listed

influenza virus

Reported on - 21/12/2020

Last occurrence - 21/02/2014

Reason - Recurrence

Epidemiology

Source of the event or origin of the infection

- Unknown or inconclusive
- Contact with wild species

Epidemiological commentsDecontamination has been completed on all three affected properties. Decontamination of the composting site (required temperatures for required time) achieved on 11 December 2020. Surveillance is ongoing.

Control measures at event level

Domestic control measures

Applied

- Disinfection
- Movement control inside the country
- Quarantine
- Stamping out
- Surveillance outside containment and or the protection zone
- Surveillance within containment and or the protection zone
- Traceability

Wild control measures

Applied

- Disinfection
- Movement control inside the country
- Quarantine
- Stamping out
- Surveillance outside containment and or the protection zone
- Surveillance within containment and or the protection zone
- Traceability

Diagnostic

Clinical signs - Yes

Method of diagnostic

- Necropsy
- Diagnostic test
- Clinical
